

## Press release

# We will improve safety on national road no. 65 on the section from Olecko to Gąski

Warsaw, 11.04.2024 - PORR S.A. signed an agreement with the General Directorate for National Roads and Motorways for the expansion of national road No. 65 from Olecko to Gąski. This is another task, after the contract for the construction of the Gąski bypass, entrusted to PORR within one year in the Warmian-Masurian Voivodeship. The contract worth over PLN 70 million will be completed within 16 months, excluding the winter period.

The scope of the task entrusted to PORR includes the construction of a new surface structure with a permissible load of 11.5 t/axle and a width of 8 m. The investment will include the elimination of non-standard vertical and horizontal curves, the expansion of three regular intersections to sewered intersections, along with the construction of lighting and the construction of additional traffic lanes to turn left at the entrances of the national road. There will be a sidewalk over 700 m long, three pedestrian crossings, and sidewalks at the intersections, which will enable pedestrians to safely use bus bays and public transport. We will rebuild the culverts and the bridge structure.

The value of the implemented task is PLN 70.6 million gross. The planned completion date of construction works is 16 months from the date of conclusion of the contract. Winter periods (i.e. from December 16 to March 15) are not included in the implementation time of the works.
